## Skills

HTML | CSS/SCSS | JavaScript/JSON | Photoshop (CC 2022 Certification) | Adobe Illustrator | Figma | Express.js/Node.js | Adapt Framework/SCORM | Render

## Summary

Aspiring Web Developer and Designer passionate about designing interfaces that inspire productivity and usability. I have built multiple websites through the combined efforts of learning HTML, CSS, JavaScript, and Photoshop. I hope to continue creating designs that are not only stunning, but well organized and efficient at expressing information in order to help people navigate the world of information we live in.

## Education

### Web Development and Design Bachelor

Jan. 2023 – July 2025

*Brigham Young University Idaho | GPA – 3.64*

- Proficient in HTML, JavaScript, CSS, and SCSS.
- Applied skills by developing multiple websites independently and collaboratively.
- Communicated ideas through simple, intuitively organized designs.

## Experience

### Intern

June – Sept. 2025

*Research and Business Development Center*

- Developed interactive courses using the Adapt Framework, integrating transcripts into SCORM content to support independent and startup businesses.
- Directed AI-generated video content to improve student comprehension and retention.
- Designed wireframes for lesson organization, optimizing teaching for concise learning.

### Employee

Sept. - Dec. 2022

*Chick-fil-a*

- Delivered high-quality service to thousands daily, through following quality standards.
- Consistently performed cooking, prep, stocking, and cleaning duties, boosting efficiency.
- Resolved workflow obstacles and unexpected operational challenges independently.
